

2007-2008 SEASON POINTSCORE REVIEW

Following the announcement of the various Premiership and Pointscore winners at the 2008 NSWRA Awards Night the Board received a detailed request to review the calculation of the Elite Pointscore and determine the impact of any variance on the L E Stepto Memorial Pointscore Shield for the 2007-2008 Season.

The Board directed the NSWRA Honorary Recorder to conduct an intensive review of the calculation of the various pointscore categories and this reviewed document was considered and accepted at the 16th July Board Meeting.

It has been identified that there were in fact some errors in transposition of figures and other calculations and it is with the deepest regret that the Association must announce that the pointscore winners announced on Wednesday 21st May were in some instances incorrect.

The Board of the NSWRA is confident that the integrity of the pointscore has been restored and apologises to the affected clubs.

A summary of the announcements made and recently identified corrections is listed here and the points summaries both corrected and original follow.
